State Senate, 3rd District

The richest country in the world can afford a decent education system for all its children.

U.S. capitalism is dismantling public education. Inadequate and unequal funding of schools perpetuates racism, crime and inequality. The Peace and Freedom Party stands for:

- Integrated, democratically-run schools with up-to-date plant and equipment and smaller classes.
- Teaching the history of workers' struggles and labor's creation of society's wealth and progress.
- Multilingual and multi-cultural education at all levels.
- A federal law requiring and funding equal average per-pupil expenditures by every public school district, with extra funds for students with special needs such as disability or economic deprivation.
- Tuition-free higher education available to all.
- Restore cutbacks in public education and public library services.
- No school voucher schemes.
- Local control of schools and curricula. No takeovers by state bureaucrats.
- Repeal of the "No Child Left Behind Act" and all other "high stakes testing" attacks on children.
